Compensation Discussion and Analysis

Knowledge Network Corporation's compensation practices endeavor to attract, motivate and retain employees with the skills, experience and commitment necessary to achieve the organization's strategic and business goals. Knowledge Network's compensation philosophy is based on four core principles: performance, differentiation, transparency and accountability. We set maximum total compensation levels equal to the 50th percentile of total compensation provided to comparable

positions by relevant comparison organizations. The comparators focus on the public sector where relevant comparisons can be made. We work within provincial compensation mandates and guidelines, respecting our responsibility for appropriate expenditure of public funds. Compensation practices recognize the scope of work performed and support internal equity through evaluation in accordance with the approved job evaluation system. Compensation practices support a performance-based culture and recognize service contribution through progression within the assigned salary grade.

In the case of the President & CEO, the level of compensation is set by the Chair and approved by the Board of Directors, in consultation with the Ministry of Tourism, Arts, Culture and Sport and is subject to the approval of the Public Sector Employers Council.

All management employees, including the President & CEO, are members of the College Pension Plan. In addition, they receive group medical benefits (Life Insurance, AD&D, dental, extended health and self-insured short-term disability) as set out in Knowledge Network's HR Policies & Procedures. The organization supports approved training and professional development for all employees upon provision of receipts.
